Red Addressable Smoke Alarm System Manual Call Point 2 Wire DC24V

Basic Information

- Place of Origin: China
- Brand Name: XHA
- Certification: CE
- Model Number: CA9006
- Minimum Order Quantity: 1PCS
- Price: negotiable
- Packaging Details: 200pcs/carton
- Delivery Time: 3 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 5000PCS/Month

Product Specification

- Product Type: Fire Alarm System
- Operating Temperature: -10-50 Degrees Celsius
- Type: Smoke/Heat
- Certifications: EN54,CE
- Power Supply: DC24V
- Communication Protocol: Addressable
- Highlight: **Red Addressable Smoke Alarm**, **Addressable Smoke Alarm System**, **Manual Call Point 2 Wire**

2-Wire DC24V Smoke Alarm System Manual Call Point For Addressable Fire Alarm Control Panel
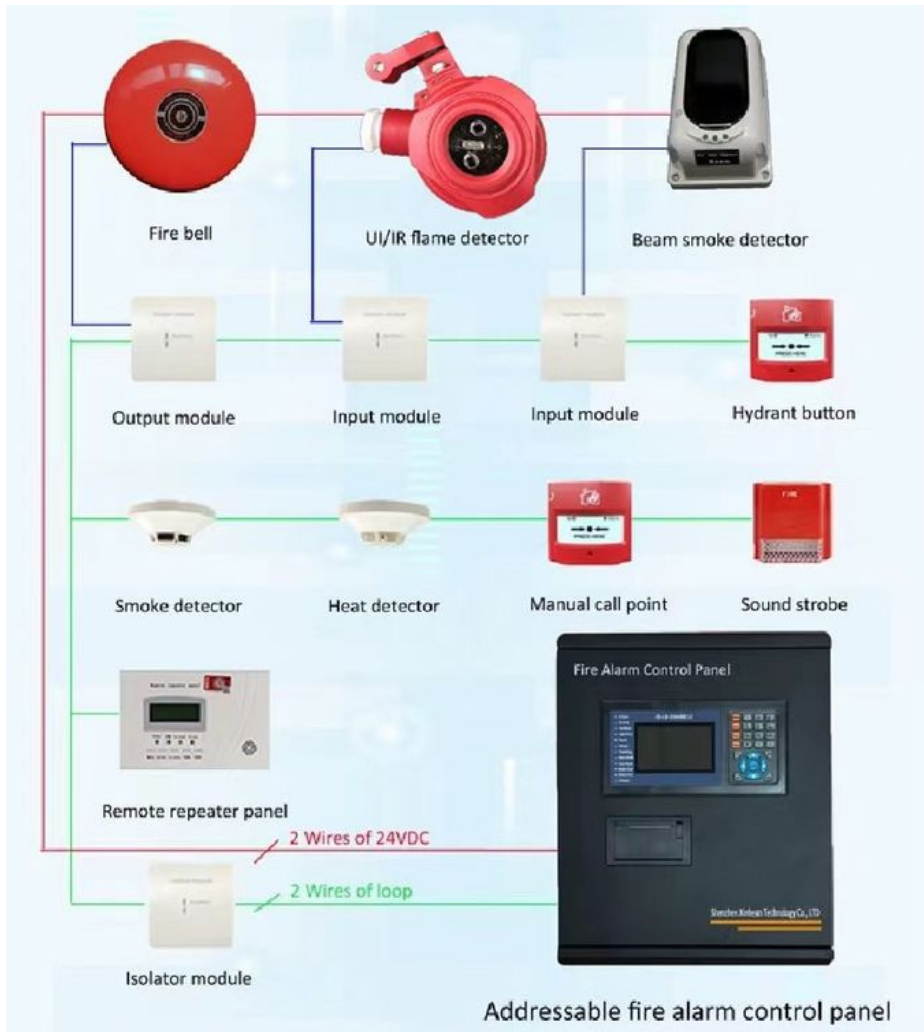

Product Description

Product Summary

The Addressable Fire Alarm System is a reliable and efficient fire protection system that is perfect for any commercial or industrial setting. This product is designed to detect and alert occupants of a building in the event of a fire, providing a crucial safety feature for all who work or reside within the space.

It is powered by a reliable communication protocol that enables it to detect and respond to potential fire hazards quickly and accurately, minimizing the risk of damage or injury.

The fire alarm system is equipped with both sound and light alarm outputs, ensuring that occupants are alerted to the presence of smoke or fire as soon as possible.

As an addressable fire alarm system, this product is able to pinpoint the location of a potential fire hazard within a building. This enables occupants and first responders to quickly identify and respond to the source of the problem, reducing the risk of damage or injury.

Overall, the Addressable Fire Alarm System is an essential component of any comprehensive fire protection strategy. It provides reliable and accurate smoke alarm detection, sound and light alarm outputs, and advanced communication protocols to ensure rapid response times and minimal damage or injury. Additionally, this product comes with a 1-year warranty, providing peace of mind and protection against defects or malfunctions.

Technical Parameters

Product Type:	Fire Alarm System Manual Call Point
Alarm Output:	Sound/Light
Communication Protocol:	Addressable
Operating Humidity:	10-95%

Power Supply:	DC24V
Detection Method:	Smoke/Heat
Warranty:	1 Year
Operating Temperature:	-10-50 Degrees Celsius
Product Type:	Recoverable
Certifications:	EN54, CE

This alarm system is an important component of fire fighting and fire protection.

Addressable fire alarm control panel

Addressable Fire Alarm System can be used in several scenarios, including but not limited to:

Hotels
Shopping malls
Hospitals
Schools
Factories
Airports
Residential buildings
