

Recoverable Gas Extinguishing System Manual Release Button For Building / Home

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: XHA
- Certification: CE
- Model Number: QT115
- Minimum Order Quantity: 1PCS
- Price: negotiable
- Delivery Time: 3 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 5000PCS/Month

Product Specification

- Application: Fire Suppression Control System
- Working Voltage: 9 To 28VDC
- Alarm Resistance: 470Ω
- Usage: Extinguishing Agent Control System
- Type: Recoverable
- Specification: 87mm*87mm*49mm
- Highlight: Recoverable Gas Extinguishing System, Building Gas Extinguishing System, Home Manual Release Button

Product Description

Manual Gas Release Button For Extinguishing Agent Fire Suppression Control Panel Control System

Introduction

Manual Release Station compatible with all the fire fighting panel. Widely used for Building, Home, Apartment etc
Release button and STOP button.

Pressing this manual release button overrides any automatic detection and allows the operator to manually trigger the extinguishant discharge if needed. This can be critical in situations where the fire detection isn't functioning properly or a fast response is necessary.

This type of button is used to manually activate the release of a gaseous extinguishing agent, like FM-200 or CO2, in a fire suppression system.

The key features of a manual gas release button for a gas extinguishant control system include:

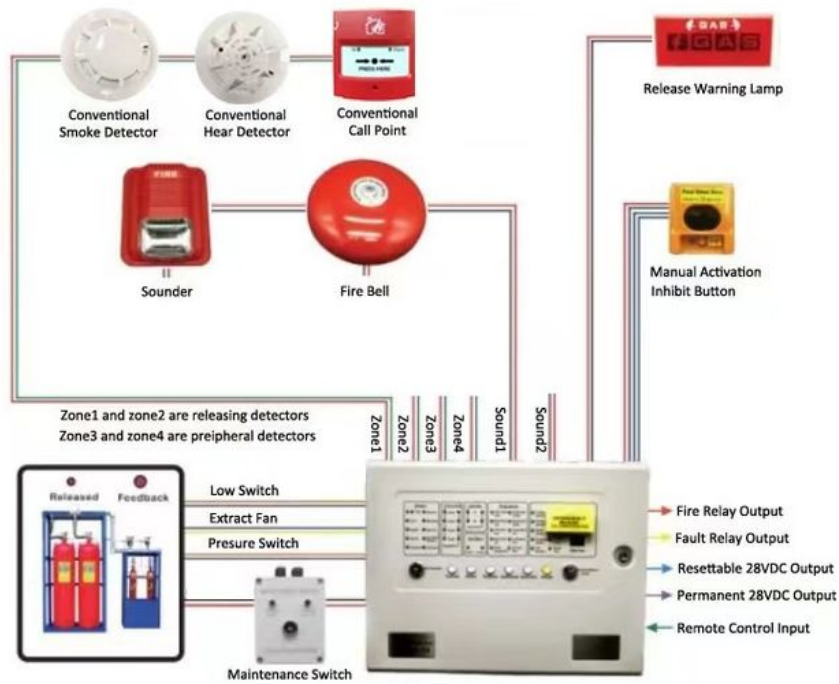

- Located near the protected equipment or area, often in a clearly marked pull station

- Designed to be easily accessible in an emergency.

- Activates the opening of valves to allow the extinguishant gas to discharge into the protected space

- Part of an integrated fire suppression control panel that monitors the system.

- Pressing this manual release button overrides any automatic detection and allows the operator to manually trigger the extinguishant discharge if needed. This can be critical in situations where the fire detection isn't functioning properly or a fast response is necessary.

Product Range

Conventional Fire Alarm System
 Addressable fire alarm system
 Gas Extinguishing control system
 Beam Detector
 4 wire smoke detectors with relay output.
 2 wire Conventional smoke and heat detectors
 Explosion-proof flame detector for fire alarm system
 Standalone smoke detectors and combustible gas detector

Service

1. OEM & ODM service.
2. Provide technical support and after-sale service.
3. 1 year warranty.
4. Normally 15 working days lead time.
5. Welcome sample order.
