

Fire Safety Household Gas Detector AC220V Standalone Combustible Gas Alarm

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: XHA
- Certification: CE
- Model Number: XHA1301
- Minimum Order Quantity: 1
- Packaging Details: 120mm*86mm*48mm
- Delivery Time: 3 Working days
- Payment Terms: T/T, Western Union

Product Specification

- Working Principle: Combustible Gas Detector
- Transmission Mode: Gas Concentration
- Alarm Volume (within 1m): $\geq 80\text{dB}$
- Detector Type: Standalone
- Power Supply: AC220V
- Output: Sound And Light, With Relay Output
- Type: Gas Detector
- Application: Kitchen, House, Industrial, commercial
- Highlight: **Fire Safety Household Gas Detector, Household Gas Detector AC220V, Standalone Combustible Gas Alarm**

Product Description

Household AC220V Standalone Combustible Gas Alarm For Fire Safety

Introduction

A gas detector is a device that detects and measures the concentration of specific gases in the surrounding environment. Gas detectors are an essential safety equipment used in a variety of industrial, commercial, and residential applications to monitor for the presence of LPG, Nature Gas and other combustible gas.

Parameters

Product Name	Standalone combustible gas detector	Work Voltage	AC220V
Volume	≥80db	Current	Standby≤6uA; Alarm≤7mA
Measure range	0-100%LEL	Work temperature	-10°C~+50°C
Output	Sound and light, with relay output	Certification	CCCF, CE

Product Range

Conventional Fire Alarm System
 Addressable fire alarm system
 Gas Extinguishing control system
 Beam Detector
 4 wire smoke detectors with relay output.
 2 wire Conventional smoke and heat detectors
 Explosion-proof flame detector for fire alarm system
 Standalone smoke detectors and combustable gas detector

Service

1. OEM &ODM service.
2. Provide technical support and after-sale service.
3. 1 year warranty.
4. Normally 15 working days lead time.
5. Welcome sample order.
