CA200 Fire Alarm Controller With Bus Communication For Easy Installation And Expansion

Basic Information

- Place of Origin: China
- Brand Name: XHA
- Certification: CE
- Model Number: CA9008
- Minimum Order Quantity: 1PCS
- Price: negotiable
- Packaging Details: 100pcs/carton
- Delivery Time: 3 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 100000PCS/Month

Product Specification

- Specification: 400mm*500mm*125mm
- Main Functions: System Self-test Function, Inquiry Function, Event Record, Data Sampling, Setting Function, Install And Programming, Feedback Function, Faulty Alarm Function
- Product Range: Conventional Fire Alarm System, Addressable Fire Alarm System, Gas Extinguishing Control System, Beam Detector, 4 Wire Smoke Detectors With Relay Output, 2 Wire Conventional Smoke And Heat Detectors, Explosion-proof Flame Detector For Fire Alarm System, St
- Alarm System: Addressable Fire Alarm System
- Main Power Supply: AC220V± 15%, 2.5A, 50HZ
- LCD: Colored, Touch Panel, Customized Request

Product Description

Product Description:

This system has a capacity of 1-6 loops, and each loop has up to 254 points. This means that it can be used to cover a wide area, making it ideal for larger buildings. It is powered by DC 24V, and it comes with two sealed batteries, each with a capacity of 12V*7Ah, to ensure that it is always ready to detect any potential fire hazards. The system is also designed to be compact and easy to install, with dimensions of 400mm*500mm*125mm.

The Addressable Fire Alarm System is a reliable and efficient way to ensure that your building is protected from potential fire hazards. It is designed to be easy to use, and it comes with a range of features to make sure that it is effective in detecting fires and smoke. The system also comes with a range of certification, including CE certification, to ensure that it meets the highest standards of safety and quality.

When it comes to fire alarm monitoring service, the Addressable Fire Alarm System is an ideal choice. It is a reliable and efficient system that can detect potential fire hazards quickly and accurately. This means that you can rely on the system to alert you to any potential danger, allowing you to take action quickly to ensure the safety of your building and its occupants.

The fire alarm installation process for the Addressable Fire Alarm System is straightforward and easy to follow. The system comes with clear instructions, and it is designed to be installed quickly and easily. This means that you can have your fire alarm system up and running in no time, ensuring that your building is protected from potential fire hazards.

In conclusion, the Addressable Fire Alarm System is an advanced and reliable fire detection and alarm system that is designed to be easy to use, install and maintain. It is an ideal choice for any building that requires a robust and efficient fire alarm system, and it comes with a range of features to ensure that it is effective in detecting potential fire hazards. Whether you need fire alarm monitoring service or are looking for a reliable fire alarm installation, the Addressable Fire Alarm System is an excellent choice.

Features:

Product Name: Automatic Fire Alarm And Linkage Function With Intelligent CA200 Fire Alarm System

Capacity: 1-6loops(254points/loop)

Installation: Wall Mounted

Product Range:

Conventional Fire Alarm System

Addressable fire alarm system

Gas Extinguishing control system

Beam Detector

4 wire smoke detectors with relay output

2 wire Conventional smoke and heat detectors

Explosion-proof flame detector for fire alarm system

Standalone smoke detectors and combustable gas detector

Model NO: CA200

This Addressable Fire Alarm System product provides fire alarm protection, easy fire alarm system installation and is an addressable fire alarm.

Technical Parameters:

Wiring Mode	Non-Polarity 2 Wired
Model NO	CA200
Alarm System	Addressable Fire Alarm System
Product Category	Addressable Fire Alarm System
Loop Bus wired	Non-polarity 2 wired
Battery power supply	DC 24V (2 sealed batteries: 2*12V*7Ah)
Certification	CE
Installation	Wall Mounted
LCD	Colored, Touch Panel, Customized Request
Service	OEM &ODM service, Provide special technical support and after-sale service, 1 year warranty, Normally 15 working days lead time, Welcome sample order

This Addressable Fire Alarm System is an alternative to conventional fire alarm panels and provides a 2 wire fire alarm system for fire alarm monitoring service.

Applications:

One of the key features of the CA9008 is its certification. This product is CE certified, ensuring that it meets the highest quality standards. It is also made in China, which makes it an affordable option for those looking for a high-quality fire alarm system.

The CA9008 has a minimum order quantity of 1PCS, and the price is negotiable. Payment terms include T/T and Western Union, and the supply ability is 100000PCS/Month. Delivery time is 3 working days, and the packaging details include 100pcs/carton. XHA also offers OEM &ODM service, special technical support, and after-sale service. The product comes with a 1-year warranty and normally takes 15 working days to manufacture. Sample orders are also welcome.

With a capacity of 1-6loops(254points/loop), the CA9008 is a versatile product that can be used in a number of different settings. The product range includes conventional fire alarm systems, gas extinguishing control systems, beam detectors, 4 wire smoke detectors with relay output, 2 wire conventional smoke and heat detectors, explosion-proof flame detectors for fire alarm systems, standalone smoke detectors, and combustible gas detectors.

The CA9008 is designed to be wall mounted, and it uses a non-polarity 2 wired loop bus. This makes it easy to install and ensures that the system is reliable and efficient. The product is ideal for use in a range of settings, including commercial buildings, public spaces, and residential properties. Whether you need a fire alarm system for a small apartment or a large office building, the CA9008 is an excellent choice.

In conclusion, the CA9008 Addressable Fire Alarm System from XHA is a high-quality, reliable, and versatile product that is perfect for a wide range of application occasions and scenarios. Whether you need a fire alarm smoke detector for your home or a fire alarm system installation in a commercial building, the CA9008 is an excellent choice.

Support and Services:

Our Addressable Fire Alarm System product comes with comprehensive technical support and services to ensure its proper installation, configuration, and operation. Our team of experts can provide assistance with system design, installation, programming, and troubleshooting. We also offer training programs for end-users and technicians to ensure that they are equipped with the knowledge and skills necessary to use and maintain the system effectively. In addition, we provide regular software updates and maintenance services to ensure that the system is always up to date and performing optimally.

Packing and Shipping:

Product Packaging:

Addressable Fire Alarm Control Panel

Addressable Smoke Detectors

Addressable Heat Detectors

Addressable Manual Call Points

Addressable Sounders

Shipping:

The product will be shipped in a sturdy cardboard box.

All components will be securely packed to prevent damage during transit.

Shipping will be done through a reputable courier service.

The estimated delivery time will be provided at the time of purchase.

FAQ:

Q1: What is the brand name of the Addressable Fire Alarm System?
A1: The brand name is XHA.
Q2: What is the model number of the Addressable Fire Alarm System?
A2: The model number is CA9008.
Q3: Is the Addressable Fire Alarm System certified?
A3: Yes, it is certified with CE.
Q4: Where is the Addressable Fire Alarm System manufactured?
A4: It is manufactured in China.
Q5: What is the minimum order quantity for the Addressable Fire Alarm System?
A5: The minimum order quantity is 1PCS.
Q6: Is the price of the Addressable Fire Alarm System negotiable?
A6: Yes, the price is negotiable.
Q7: What are the payment terms for the Addressable Fire Alarm System?
A7: The payment terms are T/T and Western Union.
**Q8: What is the supply ability of the Addressable Fire Alarm System?**
A8: The supply ability is 100000PCS/Month.
Q9: What is the delivery time for the Addressable Fire Alarm System?
A9: The delivery time is 3 working days.
Q10: What are the packaging details for the Addressable Fire Alarm System?
A10: The packaging details are 100pcs/carton.
