

## DC24V Working Voltage Infrared Fire Detector with IP66 Protection Level and Safety Features

### Our Product Introduction

for more products please visit us on [xhafiresafety.com](http://xhafiresafety.com)

#### Basic Information

- Place of Origin: China
- Brand Name: XHA
- Certification: CCC
- Model Number: KF715UVIR2
- Minimum Order Quantity: 1PCS
- Price: negotiable
- Packaging Details: 8pcs/Carton
- Delivery Time: 3 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 500pcs/month

#### Product Specification

- Working Voltage: DC24V
- Detection Range: Level I 25meters(33cm\*33cm Ethanol Fire)
- Sensitivity: Level 1(25m)
- Level Of Protection: IP66
- Origin: China
- Types Of Detectors: Explosion-Proof Infrared Flame Detector
- Output: Relay Output
- Product Name: Advanced Infrared Flame Detector For Fire Detection In Metallurgical Industry
- Highlight: **Safety Infrared Fire Detector,**  
**DC24V Infrared Fire Detector,**  
**IP66 Protection Level Infrared Fire Detector**

## Product Description

### Product Description:

The infrared fire detector has a detection range of Level I up to 25 meters, which can detect an ethanol fire up to 33cm x 33cm. This makes it highly effective in detecting fires at an early stage, thus preventing major damage and loss. Its ability to detect flames makes it an excellent addition to your fire and gas detection system.

Aside from its excellent fire detection capabilities, this product also offers OEM and ODM services, providing you with the flexibility to customize the product to your specific needs. Technical support and after-sale service are also available, ensuring that you are getting the best possible assistance for your product. The product also comes with a 1-year warranty, giving you peace of mind in case any issues arise.

The fire response time for this infrared flame detector is also impressive, clocking in at ≤10S. This means that in case of a fire, the product will detect it quickly, allowing you to take the necessary actions to prevent further damage. With a normal lead time of 10 working days, you can have this product up and running in no time.

### Features:

Product Name: Fire Alarm Flame Detector

Product Category: Fire Alarm Flame Detector

Detection range: Level I 25meters (33cm\*33cm Ethanol fire)

Level of protection: IP66

Output: Relay Output

Infrared Sensor Probe Type: Infrared Flame Detector

Keywords: flame detector fire alarm, infrared flame detector

### Technical Parameters:

Infrared Sensor Probe Type	Infrared Flame Detector
Product Name	Advanced Infrared Flame Detector for Fire Detection in Metallurgical Industry
Detection Range	Level I 25meters(33cm*33cm Ethanol fire)
Product Category	Fire Alarm Flame Detector
UV Flame Detector Detection Angle	120 Degree
Fire Response Time	≤10S
Origin	China
Service	OEM & ODM service. Provide technical support and after-sale service. 1 year warranty. Normally 10 working days lead time.
Applications	Fire detection system, flame detection sensor, fire alarm detector
Output	Relay Output

### Applications:

The XHA Fire Alarm Flame Detector is an advanced infrared smoke detector that is specifically designed for fire detection in the metallurgical industry. It is equipped with a 1xNPT 3/4 interface and has a level of protection of IP66. This product belongs to the fire alarm flame detector product category and is made in China.

The XHA Fire Alarm Flame Detector is perfect for use in a variety of application occasions and scenarios. It can be used in metallurgical plants, chemical plants, oil refineries, and other industrial settings where there is a risk of fire. It can also be used in warehouses, storage facilities, and other areas where there is a need for early detection of fires.

With its advanced infrared technology, the XHA Fire Alarm Flame Detector is able to detect fires quickly and accurately. It is designed to be easy to install and maintain, making it a cost-effective solution for fire detection in a wide range of settings. So, if you are looking for a reliable and effective fire alarm flame detector, the XHA Fire Alarm Flame Detector is the perfect product for you.

### Support and Services:

The Fire Alarm Flame Detector product is a sophisticated device designed to quickly detect flames and alert users of potential fires. Our technical support team is available to assist customers with any questions or concerns regarding the installation, operation, and

maintenance of the product.

In addition to technical support, we also offer a range of services to ensure the optimal performance of the Fire Alarm Flame Detector. These services include regular maintenance and calibration, on-site testing and inspection, and remote monitoring and diagnostics. Our team of experienced technicians and engineers are dedicated to providing reliable and efficient support and services to our customers. Contact us today to learn more about our technical support and services for the Fire Alarm Flame Detector product.

### Packing and Shipping:

**Product Packaging:**

The Fire Alarm Flame Detector product will be packaged in a sturdy cardboard box with protective foam inserts to ensure safe transportation. The box will be labeled with the product name, manufacturer's logo, and important handling instructions.

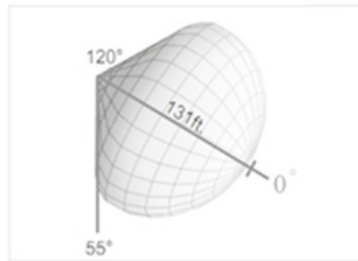

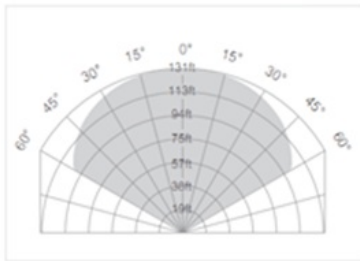

**Shipping:**

The Fire Alarm Flame Detector product will be shipped via a trusted courier service. The shipping cost will be calculated based on the destination and weight of the package. The customer will be provided with a tracking number to track the delivery status of their package. Delivery time may vary depending on the location of the customer.

### FAQ:

- Q: What is the brand name of this fire alarm flame detector? -----
- A: The brand name of this fire alarm flame detector is XHA.
- Q: What is the model number of this fire alarm flame detector?
- A: The model number of this fire alarm flame detector is KF715UVIR2.
- Q: What is the certification of this fire alarm flame detector?
- A: This fire alarm flame detector is certified by CCC.
- Q: What is the minimum order quantity for this fire alarm flame detector?
- A: The minimum order quantity for this fire alarm flame detector is 1PCS.
- Q: What are the payment terms for purchasing this fire alarm flame detector?
- A: The payment terms for purchasing this fire alarm flame detector are T/T and Western Union.
- Q: What is the price of this fire alarm flame detector?
- A: The price of this fire alarm flame detector is negotiable.
- Q: What is the supply ability of this fire alarm flame detector?
- A: The supply ability of this fire alarm flame detector is 500pcs/month.
- Q: What is the delivery time for this fire alarm flame detector?
- A: The delivery time for this fire alarm flame detector is 3 working days.
- Q: What are the packaging details for this fire alarm flame detector?
- A: The packaging details for this fire alarm flame detector are 8pcs/Carton.

Terminal Description	
+24V	24V Power supply
GND	24V Power GND
FRJK	Fire relay N/O contact
FRJD	Fire relay public terminal
FLJK	Fault relay N/C contact
FLJD	Fault relay public terminal
