

Advanced Addressable Fire Alarm System for Precise Fire Location and Identification CA100 Addressable Panel Fire Alarm System

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: XHA
- Certification: CE
- Model Number: CA9008
- Minimum Order Quantity: 1PCS
- Price: negotiable
- Packaging Details: 100pcs/carton
- Delivery Time: 3 Working days
- Payment Terms: T/T, Western Union
- Supply Ability: 100000PCS/Month

Addressable Fire Alarm Control Panel

ODM/OEM

AC90-270V

1 loop

Product Specification

- Main Functions: System Self-test Function, Inquiry Function, Event Record, Data Sampling, Setting Function, Install And Programming, Feedback Function, Faulty Alarm Function
- Installation: Wall Mounted
- Product Category: Addressable Fire Alarm System
- Operating Environment: Temperature -10°C~+50°C Humidity ≤95%
- Service: OEM & ODM Service, Provide Technical Support And After-sale Service, 1 Year Warranty, Normally 15 Working Days Lead Time, Welcome Sample Order
- Customization: Available | Customized Request
- Battery Power Supply: DC 24V (1 Sealed Batteries: 1*12V*2.3Ah)
- Anti-Theft Alarm System Type: Smoke Alarms

Product Description

Product Description:

The Addressable Fire Alarm System is a top-of-the-line product designed to provide reliable fire detection and alarm capabilities for various applications. This product falls under the Product Category of Addressable Fire Alarm System, making it an essential fire alarm equipment for ensuring the safety of buildings and occupants.

With a strong focus on customer satisfaction, this system offers OEM & ODM service, allowing for customization to meet specific project requirements. In addition, users can benefit from the exceptional technical support and after-sale service provided by the manufacturer, ensuring smooth operation and maintenance of the fire alarm system.

As a testament to its quality and durability, the Addressable Fire Alarm System comes with a 1-year warranty, providing users with peace of mind and assurance of product reliability. With a quick lead time of normally 15 working days, customers can expect prompt delivery of their fire alarm equipment to meet project deadlines.

For added convenience and flexibility, this system welcomes sample orders, allowing customers to experience its performance firsthand before making a larger purchase. This demonstrates the manufacturer's commitment to customer satisfaction and confidence in the product's capabilities.

When it comes to safety certifications, the Addressable Fire Alarm System is CE certified, meeting international standards for fire alarm systems. This certification ensures that the product has undergone rigorous testing and meets the necessary requirements for reliable fire detection and alarm functionality.

Installation of this advanced fire alarm system is hassle-free, with the option for wall-mounted placement for optimal coverage and visibility. This ensures that the system can be easily integrated into various building structures, providing comprehensive fire detection capabilities.

Equipped with a contacts capacity of 1A/24VDC, this system offers robust connectivity and compatibility for seamless integration with other fire alarm devices and components. This ensures efficient communication and coordination within the fire alarm system, enhancing overall reliability and performance.

In conclusion, the Addressable Fire Alarm System is a cutting-edge solution for fire detection and alarm needs, offering exceptional fire alarm service and functionality. With features such as smoke detector fire alarm system integration, quick lead times, and customer-centric services, this product is a reliable choice for ensuring the safety and security of buildings and occupants.

Features:

Product Name: Addressable Fire Alarm System
Main Power Supply: AC220V± 15%, 50HZ
Battery Power Supply: DC 24V (1 sealed batteries: 1*12V*2.3Ah)
Capacity: 254 Control Points
Work Voltage: AC90-270V
Contacts Capacity: 1A/24VDC

Technical Parameters:

Product Category	Addressable Fire Alarm System
Loop Bus Wired	Non-polarity 2 wired
Contacts Capacity	1A/24VDC
Certification	CE
Capacity	254 Control Points
Customization	Available Customized Request
Battery Power Supply	DC 24V (1 sealed batteries: 1*12V*2.3Ah)
Operating Environment	Temperature -10°C~+50°C Humidity ≤95%
Main Power Supply	AC220V± 15%, 50HZ
Work Voltage	AC90-270V

Applications:

The XHA CA9008 Addressable Fire Alarm System is a versatile product suitable for various application occasions and scenarios. This fire alarm system, certified with CE, is designed and produced in China with a minimum order quantity of 1PCS and a negotiable price. With its supply ability of 100,000PCS per month and a quick delivery time of 3 working days, the XHA CA9008 is a reliable choice for addressing fire safety needs in a timely manner. The packaging details include 100pcs per carton, ensuring convenient handling and distribution.

The XHA CA9008 features a Loop Bus Wired system with non-polarity 2 wired configuration, operating at a work voltage of AC90-270V. Its main functions include a system self-test function, inquiry function, event record, data sampling, setting function, install and programming capabilities, feedback function, and faulty alarm function.

Furthermore, XHA offers excellent service options for the CA9008 fire alarm system, including OEM & ODM services, technical support, after-sale service, a 1-year warranty, and a lead time of normally 15 working days. Sample orders are welcomed, providing customers with the opportunity to experience the product firsthand.

The dimensions of the XHA CA9008 are 320mm×240mm×80mm, making it a compact and space-efficient choice for various installations. Its versatility and advanced features make it ideal for fire alarm kits, fire alarm detectors, and fire alarm system panels.

Support and Services:

Our Product Technical Support and Services for the Addressable Fire Alarm System include:

- Installation guidance and assistance
- System configuration support
- Troubleshooting and diagnostic assistance
- Software and firmware updates
- Training resources for users and technicians
- Maintenance and repair services
- 24/7 technical assistance hotline

Packing and Shipping:

Product Name: Addressable Fire Alarm System

Description: This advanced fire alarm system is designed to accurately detect and alert occupants of a building in the event of a fire emergency, providing crucial notifications for prompt evacuation and safety.

Package Contents:

Addressable Fire Alarm Control Panel

Smoke Detectors

Heat Detectors

Manual Call Points

Sounders and Strobes

Shipping Information:

Shipping Method: Standard Shipping

Shipping Address: [Customer's Address]

Estimated Delivery Time: 5-7 business days

Shipping Cost: Calculated at checkout

FAQ:

Q: What is the brand name of this Addressable Fire Alarm System product? -----

A: The brand name is XHA.

Q: What is the model number of this Addressable Fire Alarm System product?

A: The model number is CA9008.

Q: Where is this Addressable Fire Alarm System product manufactured?

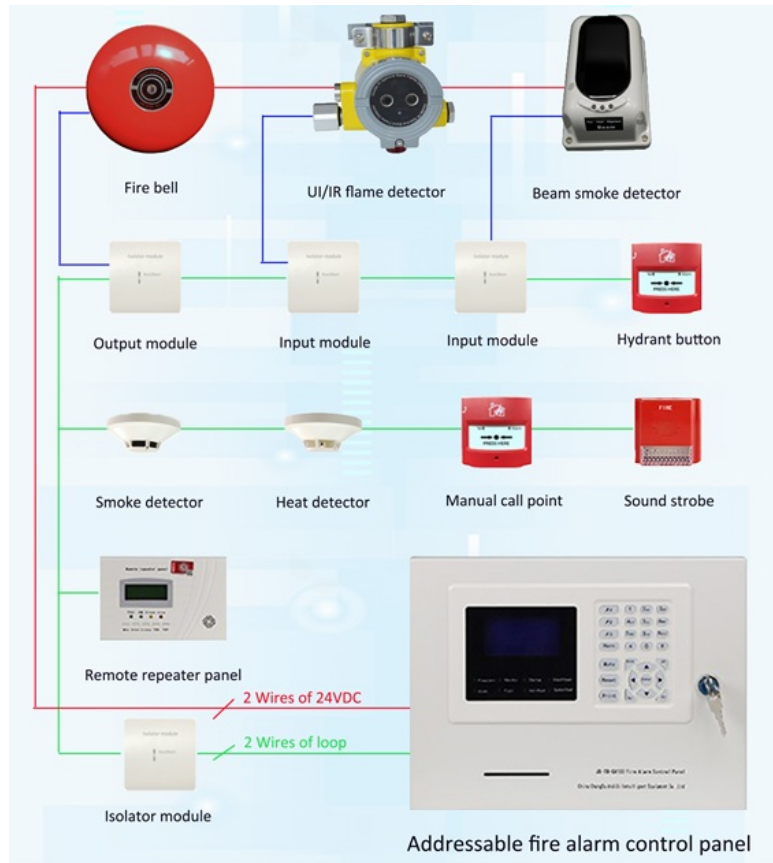

A: It is made in China.

Q: What is the minimum order quantity for this Addressable Fire Alarm System product?

A: The minimum order quantity is 1 piece.

Q: What are the accepted payment terms for purchasing this Addressable Fire Alarm System product?

A: The accepted payment terms are T/T and Western Union.
