

## Wall-Mounted High Temperature Heat Detector for Industrial Fire Alarm Systems

Our Product Introduction

for more products please visit us on [xhafiresafety.com](http://xhafiresafety.com)

### Basic Information

- Place of Origin: China
- Brand Name: XHA
- Certification: CE
- Model Number: CA9005
- Minimum Order Quantity: 1
- Price: USD4.66/pcs
- Packaging Details: box
- Delivery Time: 7 work day
- Payment Terms: T/T
- Supply Ability: 500pcs/7 days

### Product Specification

- Mounting Type: Wall-Mounted
- Detection Type: Fixed Temperature
- Environment: High Temperature
- Application: Industrial
- Accuracy: High
- Construction: Durable

## Product Description

# Addressable High Temperature Heat Detector Model CA9005

### Product Overview

Wall-mounted heat detector designed for integration into fire alarm system base stations, specifically engineered for industrial fixed fire protection applications.

### Key Features

- **Wall-Mounted Design**
  - Easy installation and integration into fire alarm systems
- **Fixed Temperature Detection**
  - Precise and reliable monitoring for high temperature environments
- **Industrial Grade Construction**
  - Built for heavy-duty use in demanding industrial settings
- **High Accuracy Performance**
  - Ensures early detection and quick response to potential fires
- **Durable Construction**
  - Resistant to environmental factors, ensuring long-term reliability

**Shenzhen Xinhe'an Technology Co., Ltd.**
